## **DETAILED ACTION**

### ***Response to Amendment***

1. Applicant's amendment filed on 9/28/07 has been fully considered and entered.

### ***Reasons for Allowance***

2. Claims 22-24 and 26-33 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or reasonably suggest all the limitations recited in claim 22. Specifically, the prior art of record fails to disclose a transmission line, comprising an optical fiber cord having a coil shape for allowing an elongation of the optical fiber cord; an optical fiber connector formed on an end of the optical fiber cord and connected to the stretch length control member; and another optical fiber connector formed on another end of the optical fiber cord and connected to the stretch length control member, wherein in a state where the stretch length control member is elongated to a maximum elongation length, a tensile force acting on the optical fiber cord is absorbed by the stretch length control member and the optical fiber connectors in combination with the other limitations of claim 22.

Claims 23, 24 and 26-33 depend from claim 22.

Any comments considered necessary by applicant must be submitted no later

than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
